

To my friends: This was my experiment using the Google AI engine called BARD. I was impressed, but also confused by some of the errors, which I show in red below. There was a 1st draft which was so off-base I did not copy/paste it, but I wish now I had. Anyway, I liked the results. After these two drafts, I show a screen-capture image of my test of ChapGPT. It was also accurate, pulling things from existing reviews online.

2nd Draft from BARD of Summary of Winnie and the Mystery of the Missing Moonstones

Winnie and her brother, Jerry, are camping in the Pine [National] State Forest when they meet two real-live trolls, Oola and Humphrey. The trolls tell Winnie and Jerry that their moonstones, which are essential to their magical powers, have been stolen. Winnie and Jerry agree to help the trolls find the moonstones. Along the way, they encounter a variety of obstacles, including a [greedy prospector] *not true*, a pesky bear, and a dangerous [storm] *whirlpool*. But with the help of their new friends, Winnie and Jerry are able to recover the moonstones and save the trolls' magical world.

In the end, Winnie and Jerry learn that friendship and teamwork can overcome any obstacle. They also learn that it is important to help others in need, even if they are different from you.
